ABOUT US

Our company was established in 2004 to sell industrial kitchen equipment. In 2013, we acquired our wood production workshop. In this workshop, we started to serve the Horeca sector by producing wooden equipment for hotels, restaurants and cafes. We are excited to share our experience of more than 17 years with you, our precious customers.

Our company produces kebab presentations, basalt steak, tea & coffee presentations, doner rolls, breakfast presentations, hotel kits, pizza & pita presentations, saucers, steak boards and crates.

Working with the principles of honesty in service, success in production, timely delivery and reasonable prices, Aslan Wood will continue to serve in the future as it does today with your support.
